Data Analyst

WORK EXPERIENCE

Resume Worded, London, United Kingdom

Education technology startup with 50+ employees and \$100m+ annual revenue

Data Analyst

08/2021 – Present

- Managed large datasets with 20K observations using regular expressions and selecting key variables to build models for statistical logic.
- Created explanatory models of use cases for presentation to 100+ project stakeholders and 40+ non-technical audiences.
- Performed data cleaning necessary for predictive models by assessing information from 1200+ customers in the construction and financial sectors.
- Collaborated with 30+ data analysts, data scientists, and project managers on several concurrent projects in Q1 2021.

Polyhire, London, United Kingdom

NYSE-listed recruitment and employer branding company

Data Specialist

10/2019 – 07/2021

- Provided technical support for new software systems by creating database structures and tables based on 20+ business requirements.
- Created dashboards using SSRS and Tableau to display 30+ KPIs related to distinctive areas of interest within departmental operations.
- Improved Polyhire's enterprise data storage capacity from 25 to 60TB by optimizing the archival database structure.
- Recommended upgrades that improved platform architecture in response to internal audits concerning system performance; boosted recovery time after outages by 80%.

Growthsi, London, United Kingdom & Barcelona, Spain

Career training and membership SaaS with 150,000 users

Research Assistant

11/2018 – 09/2019

- Engaged in end-to-end data collection processes using qualitative and quantitative methods for 10+ research projects.
- Analyzed quantitative data with a 7-man research team and presented results through 30 written publications and 20+ oral presentations.
- Managed the company's \$50K research equipment and trained 60+ undergraduate students on properly using it.
- Assisted in developing 10+ new products that Growthsi released to the public in the first quarter of 2019.
